MODULAR DATA CENTERS, SIZED BY IT POWER · REV 2

Your own AI infrastructure, arrives finished.

BEN Engine puts power, cooling, compute and controls in one sealed box, from a mini rack on an office shelf to a liquid-cooled 40 ft module. **Schreiber AI designs, builds, commissions and watches it.** Fixed scope, a price up front, and the risks on the table before the price.

THE LINEUP · THE NUMBER IS THE MAXIMUM IT POWER IN kW

BEN 1	BEN 5	BEN 30	BEN 150	BEN 300	BEN 500	BEN 700
0.2–1.5 kW	2–5 kW	10–30 kW	50–150 kW	150–300 kW	150–500 kW	400–700 kW
Indoor mini rack, 120 V plug-in	Outdoor 24U cabinet, IP66	10 ft module	20 ft module	20 ft, liquid-first	40 ft module	40 ft, liquid-first
Tiny business: one or two AI boxes, NAS, firewall	Small business outdoors	SMB private cloud	Air or rear-door cooling	One or two current liquid racks	Direct liquid + CDU	Up to five liquid racks
NEW IN REV 2				NEW IN REV 2		NEW IN REV 2

Outdoor tiers: NEMA 4X / IP66, hose-tested, hardening H1 / H2 / H3. BEN 300 and BEN 700: direct liquid W45, CDU N+1; sold once the real footprint passes our interference checks. BEN 2000 (2 MW hall) on request.

One model, every document.

Drawings, bill of materials, alarm limits and the quote come from the same configuration, so they agree.

Risks before price.

You see which risks BEN covers by design, which we monitor and which stay with you, before you see a number.

Your crew runs it.

Local-first controls, a digital twin from day one, and a commissioning script you watch on your own pad.

PROOF

FACT PENDING
BEN 1 lighthouse unit: measured IT load and noise at 1 m, first install

FACT PENDING
BEN 300 lighthouse unit: measured PUE at full liquid load
